

Washington R/C Flyers – Meeting

6-9-26

Attended: 9 members - Scott Mohr, Mark Reeves, Marshall Logue, Ron Ghighi, Hal Baker, Chris Cherwin, Warren Bieze, Jim Grobb and Jim Taylor

Guests / New members: No guests or new members were present

Guests / New members: No guests or new members were present Monthly flying program: Looks like about 5 members are still active in that program through the end of May

Field Maintenance Projects

Trees: Bob Barry was out to survey the property line west of the pavilion and has started planting willow trees on the south end. We will have to wait to see how that pans out as it may affect parking and our entry road. **Picnic tables:** Mark indicated a desire to spruce up the tables with paint before our August Open House

New Entrance Road

.At the edge of our field there is now an electric fence that must be unhooked when arriving and rehooked when leaving. Care should be taken to use the insulated handles to unhook the fence, both wires are taken over and laid on the ground toward the south side. Do not touch the bare wires always use insulated handles. There is a new double gate at the entrance to the lane leading back to airfield just unhook them and roll them and move them out of way please close them when you leave

Pushing Foam

A new section in the news letter for all club members! Send me by email what you are doing in the RC world any interest, what you're working on, what you're looking for, questions (hopefully someone will have an answer or idea), something you might want to get rid of, etc.

For Sale: Great planes Easy Sport 40 that has been converted to electric, fly's well in good shape and a Eflite Turbo Timber Evolution bind and fly good shape Any questions contact Warren Bieze

June 28th food fly

We had a great turnout about 10 members present good food and lots of planes! We also had some combat flying with Tom Mark Marshall Hal and Scott competing! Jim was the shooting the video. Marshall was taken out early by the "wind" and broke his plane. Tom had clipped Scott's streamer early then cut a short section of streamer off of Marks, with two streamers raped around his plane he proceeded to fly and it was between him and Hal soon Tom's plane ran out of battery and Hal was the last plane in the air. **You decide who the winner was!**

Check out the Videos on the Washington R/C Flyers Facebook page

All members should review the club and AMA safety rules. Activities

involving taxiing and flying aircraft west of the mat safety line are specifically

defined in our rules and regulations. Taxiing should only be done from the mat side of the pilot stations. Aircraft should be carried or pulled by hand in and out of the pit area. Flying / landing aircraft should be from the mat and east which would include hand launching aircraft and launching drones/helicopters. It is the responsibility of all members to read, understand and adhere to the club safety rules and regulations.

Member leaving hobby: Dave Miller has informed Mark that he will be selling his planes and getting out of the hobby for now. Those interested should contact Dave about his planes. We hope that at some time in the future Dave will rejoin the hobby and hopefully stop by from time to time.

Next meeting June 14th meeting – will be held at the field 6:30pm
Keep up to date on all events at our web site. New mowing schedule posted on web site
